STRONG HOLD PRODUCTS CABINETS, LOCKERS AND WORKSTATIONS

Setting the Standard for Building Safety™

Strong Hold Products

Durability in the Workplace

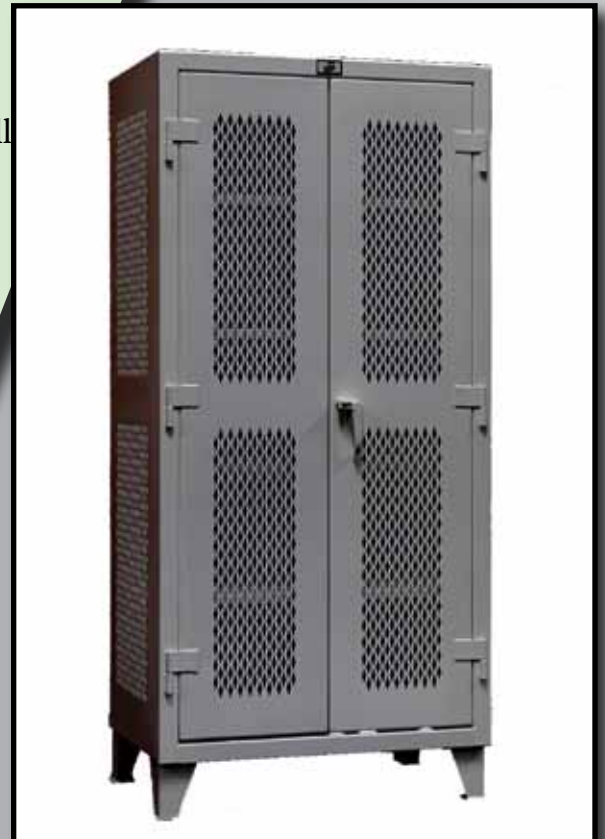

All Welded Storage Cabinets

Our 12 ga. all welded cabinet is built to outlast the competition. Our standard models include a one piece body, adjustable shelves and a 3-point locking system. We have nine standard sizes in stock and ready to ship. Custom applications welcome.

Military Grade Lockers

Our heavy duty 12 ga. lockers were specifically designed for military applications. We offer multiple configurations to meet the specific requirements of the users. There is no better value for the government on the market today.

All Welded Workstations

The 7-ga. steel top and 1/4" steel angle legs make this the heaviest duty bench available on GSA schedule.

Personnel Lockers

No need to replace your lockers every year with these. 12 ga. construction, all welded design and 3 point locking system make these lockers nearly invincible! Many configurations available.

Custom Flightline Carts

We offer an almost unlimited combination of options on our tool carts. These heavy duty carts are made with the same high quality 12 ga. construction that earned us the reputation for being the best.

Stainless Steel Products

Stainless Steel design is taking us to the next level in durability. With the optional stainless upgrade, your cabinets, lockers and workstations will be corrosion-resistant and will not rust! If you are looking for product that will last a lifetime, look no further.
